The substate regions defined here were created in consultation with the California Department of Health Services and are defined in terms of the state's 58 counties with the exception of Los Angeles County. Los Angeles County is further split into service planning areas (SPAs) that are defined in terms of census tracts (from the 2010 decennial census). As per the state's request, estimates for 26 substate regions along with one aggregate n

accruing to the state's request, estimates for 20 substate regions along with one aggregate region (Region 11 for Los Angeles County) and maps showing all 26 substate regions have been produced. Note that SPA 4 and SPA 5 in Los Angeles County were combined because individually the sample sizes in these regions were small for reporting purposes.

**Table 7. CONNECTICUT – 2016-2018 National Survey on Drug Use and Health Substate Region Definitions (defined in terms of census tracts from the 2010 decennial census, specified by a 6-digit tract identifier)**

The Connecticut Department of Mental Health and Addiction Services indicated that planning areas in Connecticut are defined in terms of townships, which in turn are defined in terms of census tracts from the 2010 decennial census within the state's eight counties. Several townships formed a single substate region.

<b>Eastern</b>	Tracts 690300 – 980000 in New London County; Tracts 840100 – 881500 and 890201 in Tolland County; Tracts 800300 – 908100 in Windham County

**Table 8. DELAWARE – 2016-2018 National Survey on Drug Use and Health Substate Region Definitions (defined in terms of counties and census tracts from the 2010 decennial census, specified by a 6-digit tract identifier)**

The state's Division of Substance Abuse and Mental Health (DSAMH), Delaware Department of Health and Social Services, defines its planning regions in terms of the state's three counties, with the exception of the Wilmington City and New Castle regions. The Wilmington City region (which lies in New Castle County) was defined based on all of the census tracts from the 2010 decennial census that are either fully or partially contained in Wilmington City. The New Castle region (excluding Wilmington City) comprises all of the tracts that are in New Castle County except those in the Wilmington City limits.

Because of sample size constraints, in consultation with the state's Center for Substance Abuse Treatment (CSAT) contact, adjacent boards were combined to form substate regions. Urban and rural counties were not collapsed together to form substate regions.
